Learning, Experience, Apprenticeships, Pathways Program

The LEAP Program (Learning, Experience, Apprenticeships, Pathways) helps District 214 students who are residents of Mount Prospect gain vital skills and hands-on experiences in various industries throughout the community and serves to further develop the career talent pipeline in the Mount Prospect area.

The partnership is aligned with District 214's Center for Career Discovery and Career Pathways program, which provides students with career-focused courses and real-life experiences to explore careers and discover their future.

As part of the LEAP Program, the District and Mount Prospect also have a local government initiative, which gives students an inside look at how municipal government effectively serves the residents of Mount Prospect.

Students spend four days each semester working within the various departments at Village Hall. Through their experiences, they develop a 30-hour project to solve a local community, business or government need. Students present their findings at the end of the semester.

Honors, Advance Placement and Dual Credit courses are offered throughout the curriculum. Please consult with your high school counselor for the latest information regarding course offerings, scheduling and registration for all career pathways and courses.

*This represents the number of units of credit required at full implementation for the graduating class of 2012 and beyond (12 units, assuming a unit is equivalent to a year-long course). Additionally, physical education, while not a state graduation requirement is a required course for all students a minimum of 3-5 days a week in each of four years of high school (See ILCS 110, 5/27-6 and 23 Ill. Adm. Code Section 1.425).
